AIRPORT

## Airport Public Hearing

### Airport Noise Compatibility Study (Part 150 Study Update)

Part 150 defines specific  
standards and systems to:

- Measure noise
- Estimate noise using computer models
- Describe noise exposure
- Coordinate compatibility program development with local land use officials and other interested parties
- Document the analytical process and development of the compatibility program
- Review FAA and public processes

**Thursday, May 13, 2010**  
**5:00 p.m. to 6:30 p.m.**

Opportunity for public comment on Part 150 Update

Part 150 is a voluntary federal program, administered by the Federal Aviation Administration (FAA), that sets guidelines for airports to use in documenting aircraft noise exposure, and in establishing programs to minimize incompatibilities with surrounding land uses.

**San Diego International Airport  
Commuter Terminal,  
3rd Floor Noise Monitoring Rm,  
3225 N. Harbor Drive 92101  
Parking will be validated**
