PLEASE SHARE YOUR SPECIAL INTERESTS, EXPERTISE OR PHILOSOPHY AS IT RELATES TO THE PENINSULA COMMUNITY: In water conservation and reuse, I am a conservative environmentalist looking responsibly for water and energy efficiencies locally and to promote less dependence on "others", i.e., federal, state and local government. As a lawyer/mediator the discipline of listening and evaluating facts and opinions, coupled with years of construction litigation experience, could be brought to bear on specific project proposals. Having served in the Navy on LSTs here in San Diego, lived in Point Loma, raised a family, coached Little League and girls' soccer, taught Sunday school, had a teen-age niece at Point Loma High, and as a member of SDYC, I know Point Loma. Ten years at the San Diego Chamber of Commerce water committee has given me a good education on the big picture and led me to realize the solutions to our water issues are at the local level.

PLEASE SHARE ANYTHING IN PARTICULAR YOU WISH TO ACCOMPLISH AS A MEMBER OF THE BOARD: To reduce the irresponsible use of water, promote xeriscape, storm water and gray water use, and use of more solar energy.
